

Refurbished Flat Fusing Presses Cont.

HEAD AND BUCK

- Pressing head is a polished aluminum surface for positive heat distribution.
- Buck is made of heavy duty steel with front drainage for drier steam.
- Rigid construction of head and buck gives 100% contact over entire pressing area.
- Buck is covered with special high heat padding, and head has a non-stick cover cloth to avoid "picking up" of fused materials.

FRAME AND LINKAGE

- Frame is heavy duty steel construction.
- Oilless bearings are used throughout the leverage system, which is made of a high tensile cast alloy for extra strength.

SPECIAL FEATURES

- Manually operated foot pedals for steam and vacuum, in addition to the automatic cycle.
- Dual bottom steam and vacuum valves — for better steaming and drying.
- Two hand safety locking control.
- Hinged timer box cover that can be locked to avoid tampering.
- Press release is automatic, or can be interrupted during the pressing cycle by hand release.
- Plastic top table front.
- "Finish Rite" control for variable pressures.

*All refurbished steam presses warranted for one year by **Seickel & Sons Inc.***

Seickel & Sons Inc. is not affiliated with **Hoffman/New Yorker Inc.** and does not rely on **Hoffman/New Yorker Inc.** for the parts used in refurbishing steam presses.
