

Cissell Moist-Rite Finishing Tunnel

Cissell's Automatic Moist-Rite Finishing Tunnel is easy to operate!

It's the answer to the faster, economical finishing requirements of the '90's ...with less operator fatigue. Simply load garments onto power-driven Cissell Conveyor;

step on foot pedal (or push "start" button).

Doors open, garment load enters tunnel—doors close ... starting automatic steam, condition and drying cycle; operator puts other garments on alternate loading zone (total of 4 zones). At end of cycle, operator steps on foot pedal; finished garments are lifted off conveyor

and transferred to drop-off

—then to customer's slick rail or conveyor and new garment load enters tunnel—all *automatically!*

Provides continuous operation for high production plants!

Completely automatic . . . all operator does is load conveyor and step on foot pedal!

Produces up to 360 finished garments per hour!
Up to 12 garments per load . . . 30 loads per hour!

Flexibility! Drop-off rail can be furnished at either end.

Has all the features of the regular Cissell Moist-Rite Tunnel . . . plus
THE ADVANTAGES OF TIME-SAVING AUTOMATIC OPERATION!
