

SUSSMAN ES Electric Steam Boilers

SUSSMAN ES PACKAGED ELECTRIC STEAM BOILERS

Suitable for industries requiring efficient, high quality saturated steam, including laboratories, hospitals, industrial plants, pilot plants, food and chemical processing applications.

These versatile generators are perfect for almost any application requiring steam from 0-150 PSIG. Each unit is complete with automatic features including pressure and liquid level controllers, ASME Code pressure vessel and safety valve and are fully tested under power. Each one must pass Sussman's rigid quality control inspection before it is shipped.

Sussman Electric Boilers - your source for fast economical steam energy.

ES SERIES FEATURES:

- Safe easy -to-use heat source - No on-site products of combustion.
- Easy, quick to install, they require only a water feed connection and electrical hook-up.
- Applications include: Steam for tanks, reactors, distillations, autoclaves, dyestuffs, food products, cosmetics, paraffins, glues, resin varnishes, sterilizers, pipe tracing and humidification.
- Built to Section I, of ASME Boiler and Pressure Vessel Codes - UL listed and CSA certified.
