

Reimers RB Series 10KW-30KW Steam Generator

Click [HERE](#) to view
RB30 Boiler Overview

Convenient Location

Place our electric boiler adjacent to the application. Oil or gas fired boilers require a separate boiler room.

Dryer Steam

Our electric boilers provide dry, saturated steam. Oil or gas fired boilers often require long steam lines which result in excessive condensation.

Economical Installation

Electrical wiring is less expensive to run than steam piping. Not having a separate boiler room or vented exhaust saves money.

Safer Operation

Electric boilers are flameless and safer. This eliminates the risk of flareback, firebox explosions and smoke damage.

Quality Excellence

- cULus Listed
- Bears National Board Boiler Stamp
- Built in accordance with ASME code
- A.S.M.E. CSD-1
- C.R.N. Available for Canada

Factory Assurance

- 1 Year Parts Warranty
- Easy Installation
- 3 Day Shipment on RB Models
- Sizes ranging from 10 to 30 KW (1 to 3 BHP)
- USA Voltages (208, 240, 480, 600 Volts)
- Foreign Voltages (220, 380, 415 Volts)

Customer Options

- Condensate return Systems
- Blowdown Systems
- **Stainless Steel Models Available**
