

CISSELL Puffers

FOUR-WAY UNIT— 33" and 33" DOUBLE TABLES

Unit, as illustrated, includes No. 3 Egg, 1-L Shoulder, 2 Mushroom and 4-C Sleever with extension and bracket for 4-C Sleever. Double Tables available in two-way or four-way units with various combinations of puff irons.

THREE-WAY UNIT— 33" DOUBLE TABLE and 15½" SINGLE TABLE

Unit, as illustrated here, includes No. 1-L Shoulder, 2 Mushroom and 4-C Sleever with extension and bracket for 4-C Sleever. *Double Table and Single Table available with any combination of Puff Irons.*

SINGLE UNIT 15½" TABLE

Unit, as illustrated here, is No. 4-C Sleever with extension and bracket. *Single Table available with any Puff Iron.*

15½" SINGLE TABLE— or 33" DOUBLE TABLES

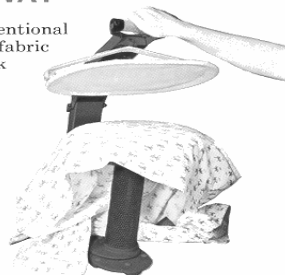

- ... with polished heads less pad and cover
- ... with unpolished heads including pad and cover
- ... with vacuum
- ... with fabric pressing heads

Round, easier-to-use Foot Pedals

New convenient, round size makes pedals easier to reach. Direct pull from pedal rods to valve stem means easier operation, too ... less pressure is required, causing less operator fatigue.

OUT OF YOUR WAY

When necessary for conventional finishing with hand pad, fabric pressing head swings back out of the way, as shown here. Head is self-adjusting, side-to-side, front-to-back, to provide uniform pressure.

VERSATILITY

- ... Wide range of head shapes
- ... table size ... and head arrangements.

To order puff irons on double or triple tables, specify arrangements of heads, left to right, facing front of table. When ordering No. 4, 4C or 4X Sleever on a single table, specify whether it should project left or right. Angular corner available for arranging any two tables in an angular arrangement. Unless otherwise specified, Slevvers on single tables will be furnished projecting to the right.

PUFF IRON TABLE ARRANGEMENTS:

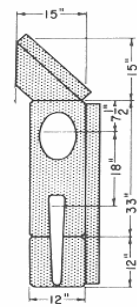

Drawings show in-line or angle arrangement of one Double Table and one Single Table. Note use of Angular Corner and Square Extension.

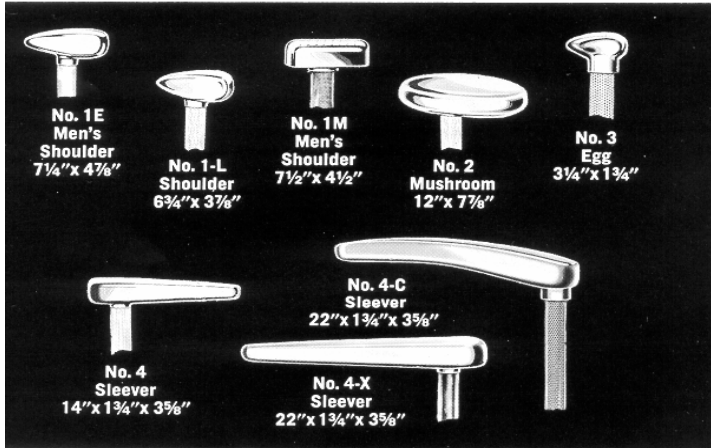

Note head centers on tables shown. Angular Corner and Back used for angle arrangement. Square Extension with bracket used with No. 4X, 4C or 4 Sleever for extra working space.

Drawings show in-line or angle arrangement of two Double Tables. Note use of Angular Corner and Square Extension.

Drawing shows suggested heads on 38" Triple Table.

All Cissell Equipment is guaranteed for one year against manufacturer's defects, except those parts which generally require replacement within one year because of normal wear and tear.

When ordering vacuum, specify steam or central air. Vacuum is especially useful on puff irons equipped with fabric pressing heads.

NOTE: Polished heads, less pads and covers or unpolished heads, including pads and covers, are furnished at same price.

Polished head puff irons are as simple to use as your hand iron. They make it easier to handle cottons and other hard finished garments. Polished heads are hotter . . . fabrics dry more quickly.
